

# SUBMIT A PROJECT

*The projects can sent be by individual designers, companies, or groups; makers of innovation are surveyed, with the only prayer to always underline the name of the author of the innovation.*

## **We are looking for**

*Accessible, simplified, easy to be assembled and disassembled products, updating or adapting projects for industrial products, reconditioned garments, spare parts strategies and programs of post-sales assistance, repairability technologies, re-healable materials, new aesthetics, repair kits, web platforms, DIY 2.0, easy-to-use repair instructions and manuals, architectural refurbishment of the built, photographic reportages, social and territorial programs for the promotion of an economy based on durability and repairability, towards an innovative relationship with objects.*

## **What to send**

### *Author*

*Name of the author, profession, age at the time of the project. Title of the project. Year. Company. Link to site of project/product + link to video (if available).*

### **Text**

*Description of the characteristics of the project and its innovative content.*

*Max 200 words.*

### **Images**

*Images in jpg or png format, 72 dpi and 800 pixel.*

*Max 5 images.*
